CEMENT WORKERS' TOOLS

Foreword

THE ROCK ISLAND line of **Cement Tools** is offered to the trade demanding the best. The same careful attention is given in the making of cement tools as to our other well known tools.

¶ Our cement tools will **outwear** any other on the market. We have added metal where they wear. This is a very important feature and should not be overlooked.

¶ Tools having 100 numbers are grey iron, polished, nickel plated and buffed.

¶ Tools having 200 numbers are bronzed, highly polished.

¶ Handle is hard wood and a shape that fits naturally to the hand without straining the arm or wrist.

We manufacture the largest and most complete line of vises on the market, and many other hardware specialties. Send for Catalogue.
